EXIT

An international expert recognized from design to the manufacturing of innovative healthcare industry-specific plastic solutions

Union Plastic, certified NF EN ISO 13485 and NF EN ISO 15378, designs and manufactures innovative plastic solutions for human and animal health.

With over 60 years' expertise in the **Pharmaceutical, Veterinary, Medical and Diagnostic** markets, the company draws on its technical know-how in plastic injection molding, and boasts state-of-the-art equipment to meet the needs of markets with demanding applications.

An extensive range of certified high-quality products:

**DOS'UP**<sup>®</sup> Dosing systems for liquids or powders

**APPLISIL**<sup>®</sup> Local application systems

**SPRAYLINE**<sup>®</sup> Respiratory devices

**UP'PHARM**<sup>®</sup> Primary and secondary pharmaceutical packaging

**MEDIC'UP**<sup>®</sup> Devices for drug transfer, injection and reconstitution

**VETIRAL**<sup>®</sup> & **VETILINE**<sup>®</sup> Veterinary drug administration syringes

**VETIMAX**<sup>®</sup> Complex devices for vaccination and insemination

**VETOCIDE**<sup>®</sup> Device for anti-parasitic treatment

•  
4 production sites operating 24/7

•  
20,000 m<sup>2</sup> of covered space, including 1,000 m<sup>2</sup> OF CLEAN ROOMS

•  
2 billion plastic parts produced each year

•  
More than 400 injection molds

Union Plastic is a subsidiary of the international OMERIN Group and benefits from the dynamism of its 1,700 employees

**omerin**

## Eco-Responsible Health Plastics

Renewal of the injection molding machines with latest-generation electric presses: power consumption reduced by 30% and noise by 80%

99% of waste recycled

Preserving health and protecting the environment

### Benefits of Bioplastic solutions

- Limit the use of fossil fuels
- Reduce the impact of waste disposal at the end of a product's life
  - Technical properties comparable to traditional materials
  - Materials certified suitable for food contact

### Our CSR commitments

- 20% *self-consumption* of electricity thanks to the 3,700 m<sup>2</sup> of photovoltaic panels installed on our plants
- Supporting our customers in an *Eco-design approach*
- *Reducing and recovering our waste and scrap*
  - Sustainable *investments* in our production facilities
  - *Developments incorporating product recycling.* Our DOS'UP+® and APPLISIL+® devices are made from 100% Polyolefins for improved recyclability.

### Union Plastic's Bioplastic offering

As a plastics manufacturer that is a pioneer in the use of renewable energy, Union Plastic supports its customers in sustainable development by working on **eco-design, waste reduction, lower energy consumption** and the use of new **more sustainable materials**.

We offer our partners a range of bioplastics:

#### • **Organically sourced products**

Based on natural fibres such as maize starch, Polylactic acid and PBS

#### • **Biodegradable**

Under industrial conditions in a recycling centre

For each application, our design office validates the specifications and conditions of use.

Your partner  
to bring your new projects to life

### **Innovation**

*More than 30 concepts proposed each year.  
Our design team works in partnership with your R&D and Marketing  
departments to jointly develop the concepts of your future products.*

We integrate  
all forms of expertise  
in a qualified system,  
from initial analysis of your  
requirements to validation of pilot runs:

- Needs and risk analysis
- CAD, Computer-generated image
- Rheological studies
  - Mock-ups
- Internally created prototype molds
- Material source selection
- Validation of pilot runs

- Co-development  
of your products and consumables
- Qualification of  
manufacturing processes
- Integration of  
existing tools

### **Development**

*Union Plastic possesses a dedicated development team comprised of  
project managers, developers and metrologists.*

## Industrial excellence

**The manufacturing of Union Plastic products is secured by four Back-Up production sites: Three in France and one in Tunisia.**

**Optimised automated or manual assembly**

*More than 25 automated lines with robots.  
Creation of complex products containing up to 12 parts*

*Our cutting-edge clean room production lines (ISO9 - ISO8 - ISO7 areas) cover an area of 20,000 m<sup>2</sup> to meet all your needs in terms of reactivity, flexibility and results.*

**Plastic injection molding and injection-blowing**

*More than 100 injection presses*

**FULL SERVICE\***

- LASER & OFFSET printing
- Customised labelling or packaging
- In-house EtO sterilisation

*\*More information on p.59 of the catalogue*

**Manufacture of prototype molds and integrated maintenance**

*Strategic file confidentiality*

**Optimising performance and tool guarantees**

## Quality, the backbone of our organisation

### Uncompromising quality

our quality system conforms to GMP\* and has, for several decades, ensured that our productions are compliant, providing you with guarantees of safety and hygiene.

ISO 17141 and ISO 14644-1 for contamination and environmental control

\* Good Manufacturing Practice

### Control

- 3 metrology laboratories
- 300 managed control appliances

### US DRUG MASTER FILE (DMF) No. 36044

Medical devices concerned:

- **DOS'UP**® measuring cups
- **DOS'UP**® dosing syringes
  - **DOS'UP**® Spoons
- **DOS'UP**® and **DOS'UP+**® pipettes
  - **APPLISIL**® applicators

NF EN ISO 15378:2018

NF EN ISO 13485:2016

0459

### Regulatory expertise

- Management of medical device registration, CE marking, and UDI traceability (MDR compliance)
- Delegation of controls

### INNOVATION

Union Plastic supports you in all your new developments.

- > Co-development of your products and consumables
- > Qualification of manufacturing processes
- > Integration of existing tools

### QUALITY

- > Delegation of controls

### FULL SERVICE

- > Optimised automated or manual assembly
- > LASER or OFFSET printing
- > Customised labelling or packaging
- > In-house EtO sterilisation

- Bulk in BigBag
- Reusable plastic crate
- Flow Pack

### Packaging

#### A complete range

*Union Plastic pays particular attention to the final packaging of its products. We offer a complete range of packaging according to product type.*

- Screen printing
- Pad printing
- Offset
- Laser
- Digital

### Printing

#### 5 technologies to better serve you

*Union Plastic offers a wide range of customisation solutions to suit your needs.*

*We use several printing technologies directly integrated into our manufacturing lines. Offset, laser, screen, pad and digital printing.*

## Full services

### Our services cover all your needs

Union Plastic positions itself as the end-to-end partner of your projects. Thanks to the expertise of our various departments, we provide an integrated offer of high-level services.

- Sterilisation
- Identification and qualification of backup material
- Quality control delegation
- Product regulatory registration
- Welding

## STERILISATION

Offer of services including qualifications:

- > Gamma
- > EtO in-house
- > Autoclave

## INTERNAL BIOBURDEN CONTROL

- > Periodic or systematic sampling
- > Load mapping and cycle qualification

## WELDING

- > Ultrasound
- > Laser
