

Applicator
for cream and gels

APPLISIL®

An innovative
and hygienic solution

APPLISIL SA1A

APPLISIL Plus SA3A

APPLISIL TU3A

All along a woman's life, her genital area is often affected by infection and dryness causing pain, inflammation, and discomfort.

Nowadays, numerous specific treatments including mostly creams are recommended for a local application.

Cream tubes often come with a vaginal applicator enabling the user to dose and administer the treatment within optimal hygienic conditions.

With the APPLISIL® solution, hygiene is reinforced, dosage is made easy, and the user's health is preserved.

Union Plastic is a leader in manufacturing drug administration devices.

Four ranges of **APPLISIL®** applicators have been developed for dosage from **0.5 to 5ml**, to facilitate cream and gel application.

The APPLISIL® solution

Applicator with straight plunger SA1A PRINTABLE

Customisable printing options for graduation purposes as well as for medical device identification needs.

Item Code	Volume ml	Length mm	Tip Diameter ø mm
1ASV1119	0,5	123	8
1ASV1128	1	123	8
1ASV1122	2	123	8
1ASV1134	5	123	8

Hygienic Cap

1ACH1125

Single dose tube TU3A

For a convenient and clean cream or gel application. Break away tip.

Item Code	Volume ml	Total Length mm
170314	1	60
170211	5	110

Applicator with cross-shaped plunger SA2A STANDARD

Highly competitive without any compromise on essential function.

Item Code Gel and Cream Applicator	Volume ml	Length mm	Tip Diameter ø mm
1ASV0015	1,5	126	8
1ASV0014	2	126	8
1ASV1117	2,5	126	8
1ASV1118	5	126	8

Threaded applicator SA3A OPTIMISED

The threading body holds applicator to tube with zero overflow of product. The shouldered plunger can then pierce the tube's safety seal.

Item Code	Volume* ml	Total Length mm	Tip Diameter ø mm
200157	2	122	8

* others sizes under development

MULTIPLE OPTIONS

- > Cap assembly
- > Parts colouring and printing
- > Flowpack sachet wrapping
(starting at 50 000 units)

APPLISIL SA1A in flowpack sachet

 Preserving health
and protect the environment

Global expert for healthcare industries

A complete range of high quality certified devices for every project:

- Dosing devices,
- Pharmaceutical primary packaging,
- Medical devices,
- In vitro diagnostic consumables
